

School Council Minutes 8.1.15

Present Mrs Rodgers and all year groups

Members discussed the minutes from the previous meeting.

Snacks at break time will be discussed in the next meeting as councillors have invited the school nurse to join them.

Suggestion has been put forward to have P.E. lesson all afternoon instead of after guided reading. The lunchtime supervisors need time to clear the hall so unfortunately this will not be possible.

It was brought to councillors that in another school, children have been growing potatoes and carrots in old tyres and was asked if this was something our school would like to do. Some members thought this was a good idea whilst others had lots of concerns. It was suggested that councillors should invite Mrs Bailey (our amazing gardener) to our next meeting to discuss this idea further. One of our councillors has some different seeds to donate suggestions to eventually have our own vegetable patch.

Loom Bands - could a lunchtime club be set up to use existing resources. Finished products could then be sold and the proceeds donated to charity?
